STAIRWELL MANAGEMENT

 **Tarkett®**

Johnsonite AngleFit Rubber Stair Tread
Organics RH6 Emperador

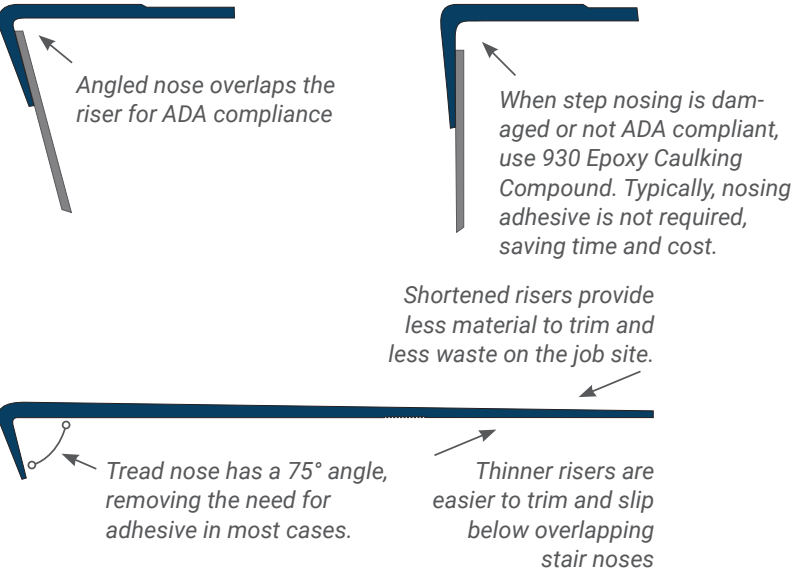

Well-rounded solutions

True flooring solutions improve every aspect of the experience, from aesthetics to safety and installation to maintenance. So Johnsonite has made significant improvements to the design of its rubber stair treads that will minimize the time and cost of installation. Our AngleFit angled noses are available on all rubber treads—with or without risers—making every installation faster, easier and safer.

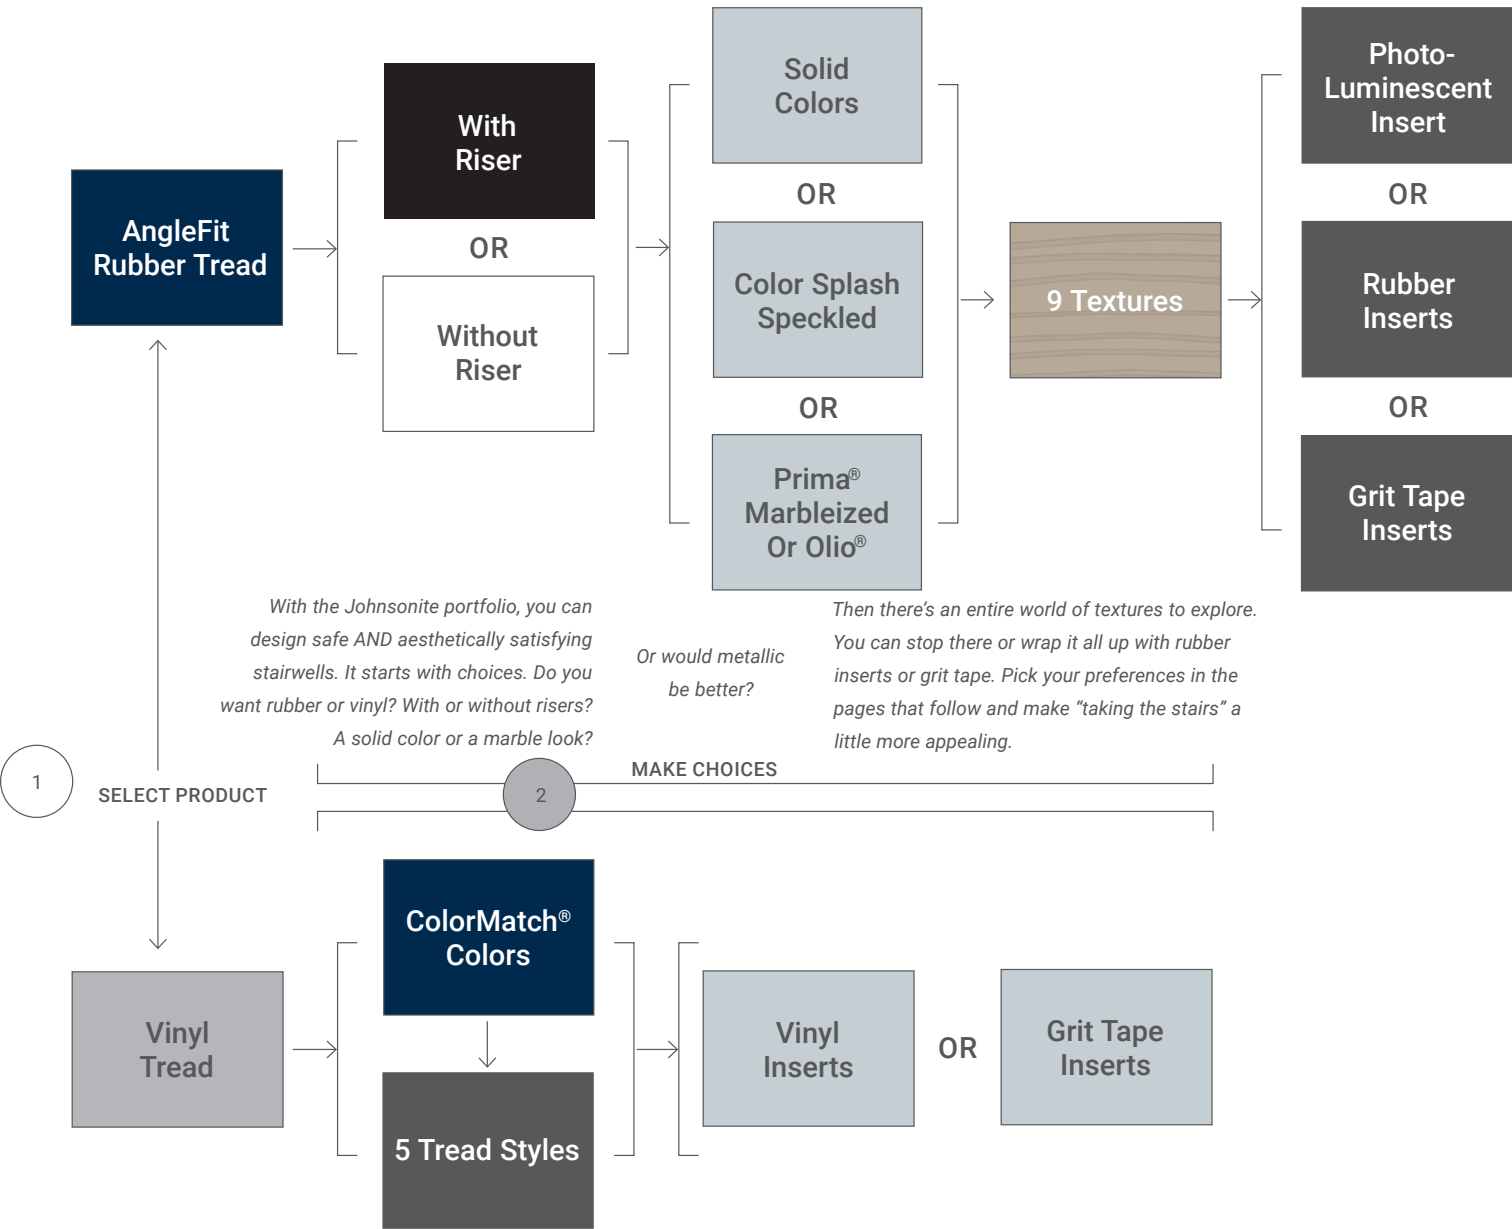

Johnsonite AngleFit Rubber Stair Tread
Prima Olio Mesto Configurations PS5 Maiden Voyage

- STAIR NOSE**
New angled stair nose returns to the step, allowing it to overlap the riser and eliminate time-consuming cuts.
- NO CAULK**
If stairs are in good condition, no nose caulk is required.
- EASY RISER**
The riser's thickness is reduced at the top, allowing it to slip easily below the stair nose.
- SAFETY**
Slip-resistant rubber treads are available in a variety of colors, textures and safety inserts for the visually impaired.

One step at a time

The right stairwell management system improves both the safety and appearance of these critical spaces, helping reduce risk and improve mobility from top to bottom. With thousands of possible combinations, Johnsonite's comprehensive stairwell management system provides no shortage of options. Choose between rubber and vinyl constructions to balance the needs of every project.

Every step matters™

Tarkett’s holistic approach to sustainability is woven into the fabric of how we do business and sits at the heart of our day-to-day decision making.

For decades, we’ve been scrutinizing every detail of our business for its impact on resources like soil, water, air, and climate—because when you’re trailblazing a more sustainable future, **every step matters**.

These three values help us stay the course when it comes to sustainability.

Transparency you can trust

We subject our products to relentless scientific scrutiny and third-party testing, then provide customers with radical transparency about our materials, operations, and corporate business practices.

Circular economy

We’re committed to creating a circular economy where nothing goes to waste by designing products with their end of life in mind. This means always interrogating the health, safety, environmental, and social impacts of our materials.

Healthy impacts

We’ve made material choices across our entire portfolio that support better indoor air quality and better outcomes for every living thing. Responsible flooring design not only improves aesthetics; it directly impacts the health of the people who occupy interior spaces.

The **proof** is in the numbers.

Holistic approach

Certifications you can trust

Transparency you can trust

Setting the standard

Global excellence

94%

of our raw materials are third-party assessed for their impact on human and environmental health based on Cradle to Cradle criteria.

2011

started working with EPEA to integrate Cradle to Cradle principles into every facet of our business

100ppm

raw materials content revealed down to 100 parts per million

When most manufacturers reveal raw materials content down to just 1,000 ppm, there’s simply no contest.

We’ve been providing Material Health Statements since 2013 to give you peace of mind about the content of our products.

99%

of flooring solutions have low VOC emission levels—10x lower than the most stringent world standards.

100%

ortho-phthalate-free vinyl production; first company to eliminate ortho-phthalates from all products

2010

first flooring manufacturer to join the UN Global Compact

2016

Began reporting to the Carbon Disclosure Project (CDP). In 2024, Tarkett scored A-, the CDP management level.

2020

first assessment by EcoVadis. In 2024, Tarkett’s score of 81/100 earned us a Platinum medal and placed us in the top 1% of rated companies.

2023

Climate target approved by SBTi (Science Based Targets initiative). Targeting 30% GHG emissions reduction and increase of 30% recycled content across all products by 2030.

69%

of raw materials are abundant, rapidly renewable or recycled.

2013

first commercial flooring Certified **Asthma & Allergy Friendly®**

2022

Powerbond® RS is the first soft surface product in the industry to be Certified **Asthma & Allergy Friendly®**.

13

zero-waste-to-landfill manufacturing plants

1.5million lb.

of flooring recycled in 2023 in North America

At Tarkett, social and environmental responsibility aren’t add-ons. They’re woven, stamped, and sealed into everything we do. But more importantly, we don’t just say this, we prove it.

Transparency documentation

At Tarkett, transparency, social responsibility and environmental stewardship aren't add-ons—they're part of everything we do. By partnering with ecomedes and mindful MATERIALS, we make it easy for you to explore our sustainable flooring product options, their product certifications, green building systems and federal standards support documents. Visit [Tarkett.ecomedes.com](https://tarkett.ecomedes.com) to learn more.
